

Linen Cupboard

FIG TREE & CO.

by Joanna Figueroa

“It was a perfect garden day with laundry drying on the line...”

When I look at all of these creamy “low volume” prints together, I immediately imagine what it would be like to rummage around in my grandma “Babcia’s” vintage linen cupboard or to smell the clean laundry on the line in the backyard. Filled with delicate florals, geometric prints and small motifs, this collection just begs to be transformed into soft romantic quilt backgrounds or to be the star of the show in a soft “low volume” quilt. Pair with our new basic EYELET prints for a perfect pairing of delicate print with rich colors!
